Join us in the Spring of 2024 for a Penetrating New Perspective on:

## “Uprooting America’s Taproot of Truth: Living in a Judicialized Post-Law America”

**PURPOSE OF THIS “Blackstone Blitz Course 1.1”:** to educate and activate America’s leaders and future leaders to effectively define and defend the Judeo-Christian worldview (our “taproot”) in today’s Culture Wars. We focus on the hegemonic *role* of the courts (our “judicialized America”) and the radical *results* of that phenomenon (the reset of America into a “post-law society”).

### PRINCIPLES OF THIS COURSE:

1. Contemporary American culture is an “alphabet soup society” consisting of intermingled, almost indistinguishable, ingredients; transgenderism is the newest, and most radical, ingredient of this miasmatic mixture.
2. The Judeo-Christian community must address this cultural chaos by (a.) distinguishing the ingredients; (b.) revealing their interrelationships; and (c.) planning and pursuing an effective blueprint for reversing this reset.
3. The major ingredients of this alphabet soup include (a.) theology (the basic “taproot”), which originally prevailed in orthodox Judeo-Christian purity in America and Western Europe, but now has morphed into radical Humanistic form in Europe (1800s-present) and America (1900s-present); (b.) philosophy, the immediate offshoot of the taproot, taking the plunge into radicalism parallel to that of theology; (c.) the “culture,” including the arts and technology, which have been vital communication conduits through which radicalized, poisonous Humanism has poured from its sources among the intelligentsia and the counter-culture into the life of mainstream America; (d.) cataclysmic events in Twentieth and Twenty-First Century America and the world (e.g., the Vietnam War, the “Great Society,” etc.) which have so powerfully catalyzed the rooting and spreading of radicalized thought and activity throughout society.
4. Judeo-Christians have both the *mandate* and the *muscle* to effectively fight the Culture Wars.
